ANZ Bank signs 3-year contract extension for enterprise Knowledge Management solution, KnowledgeIQ

Knosys Limited (ASX: KNO), (“Knosys” or the “Company”), a global software-as-a-service (SaaS) information technology company offering a range of software solutions designed to boost productivity, collaboration, and connectivity in the digital workplace, is pleased to announce that ANZ Bank has signed a three (3) year contract extension for the continued use of Knosys’ Knowledge Management solution, KnowledgeIQ.

The value of the contract over the 3 years is expected to exceed \$5 million. In addition, ANZ Bank has committed to a series of upgrades to the latest release of KnowledgeIQ to benefit from its new features.

This contract extension, combined with other recently announced wins and renewals, positions the Company well for FY23, with a strong and growing recurring revenue stream.

Knosys Managing Director, John Thompson, said: “This contract extension reflects the confidence that ANZ has in our capacity to deliver a superior Knowledge Management solution. We are seeing more clients in government agencies and financial services, becoming increasingly focused on employee and customer engagement. Our solutions support these initiatives by enabling employees and customers to find relevant information more quickly, either through call centres or through digital channels such as websites and chatbots. KnowledgeIQ enables organisations to deliver consistent and accurate information by being a single source of truth.”

Knosys now has a large customer base, a portfolio of SaaS solutions delivering strong recurring revenues and the opportunity to grow domestically and internationally. In FY23, the Company expects continued top line growth, with a focus on disciplined cost control and increased operating leverage.
